hdg 03 July 2021

The two graphs WORLD (above) and RSA (below) attempt to put the number of Covid Deaths into some sort of perspective graphically.

The big RED blocks below the black lines are TOTAL Daily Avg Deaths from ALL causes.

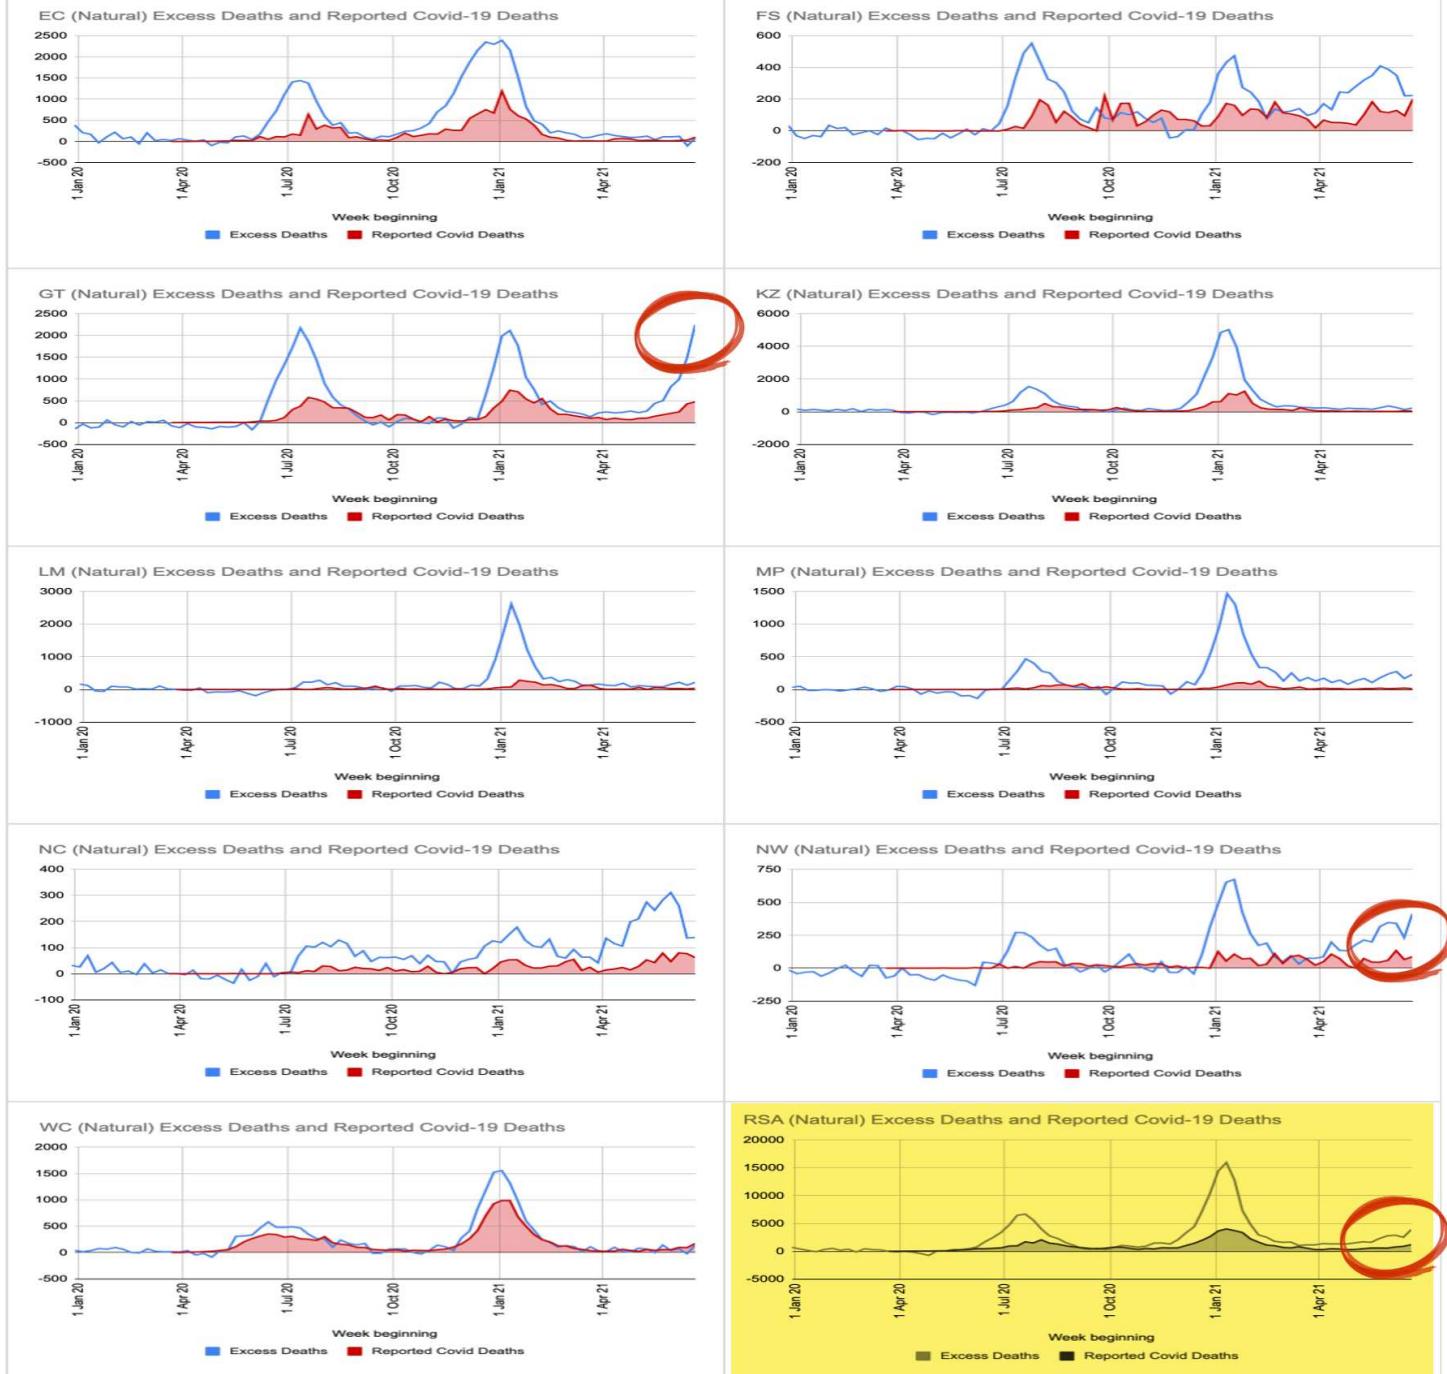

The RED area/lines on top of the red blocks are the INCREMENTAL Actual Daily Deaths due to Covid as officially reported.

The BLUE line in the bottom RSA graph shows the SAMRC Excess Deaths weekly numbers.

RSA Excess Deaths as per SA Medical Research Council

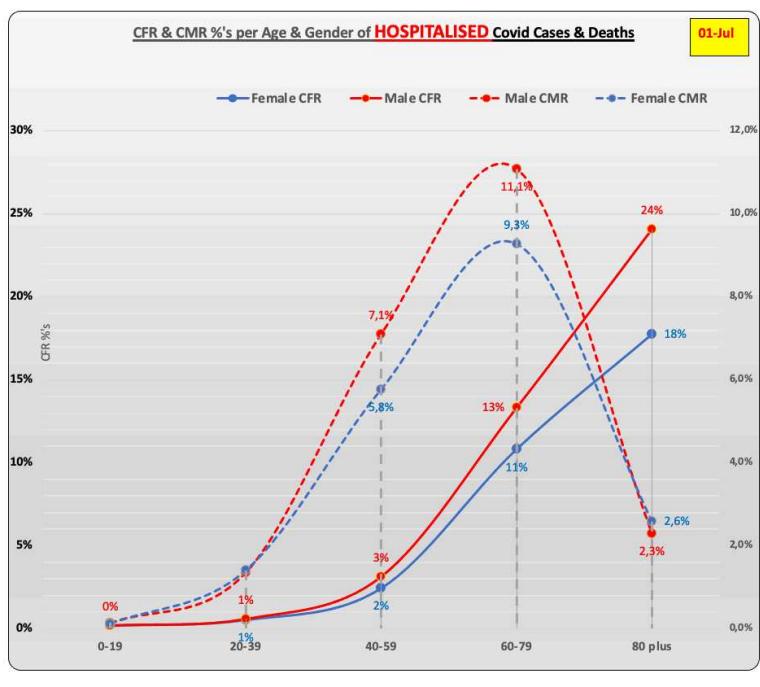

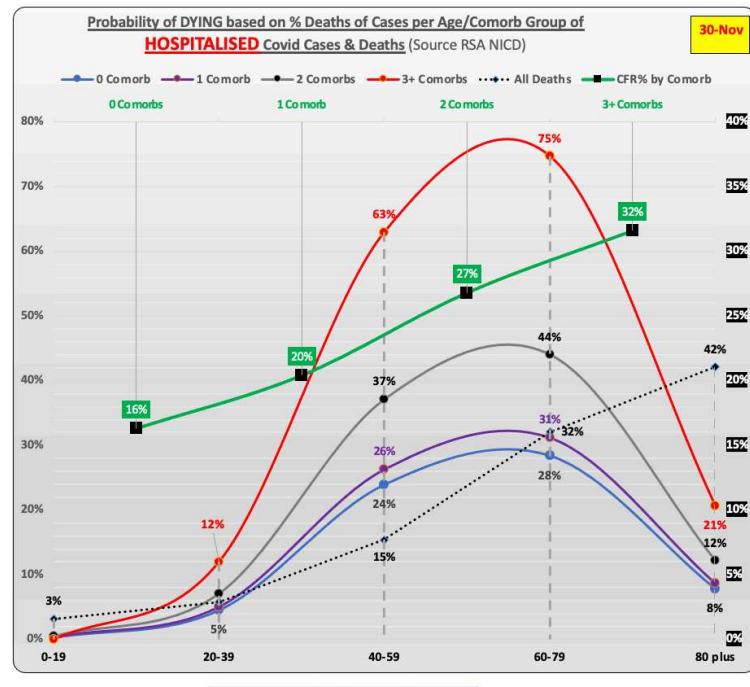

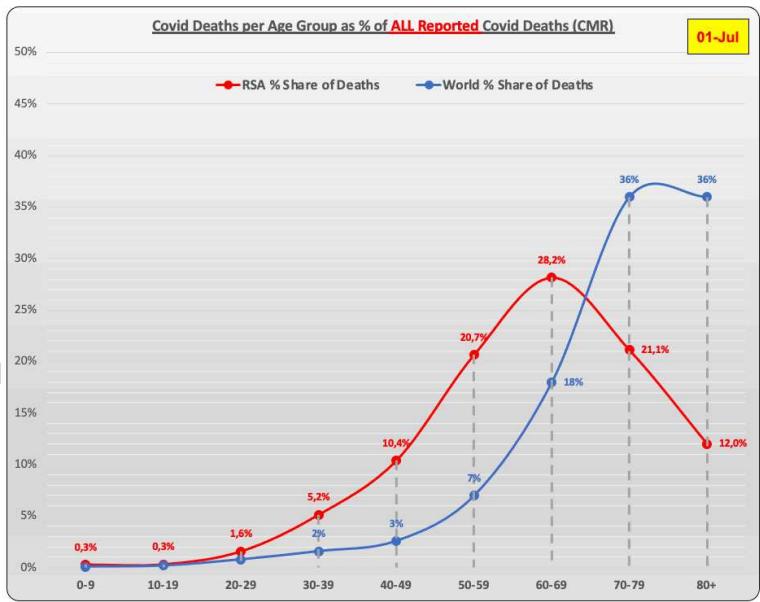

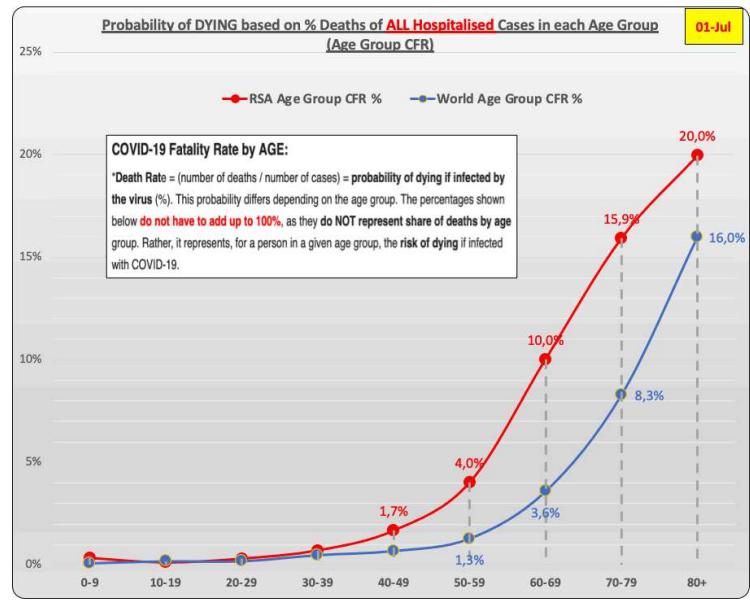

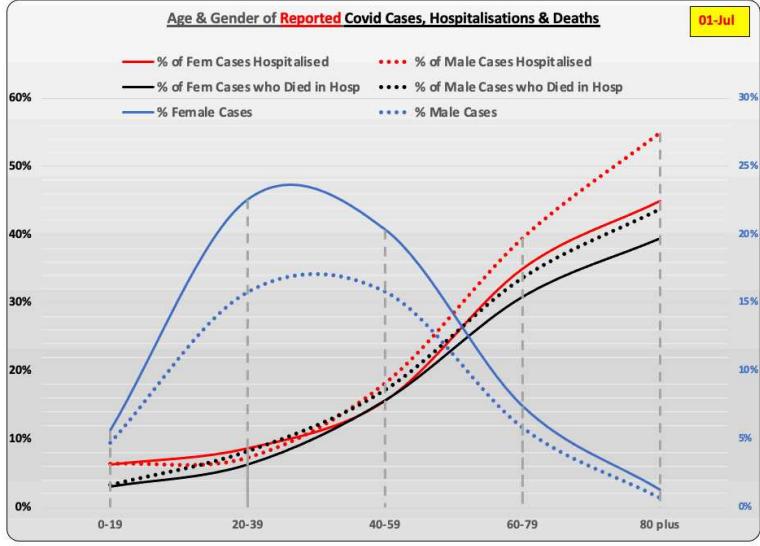

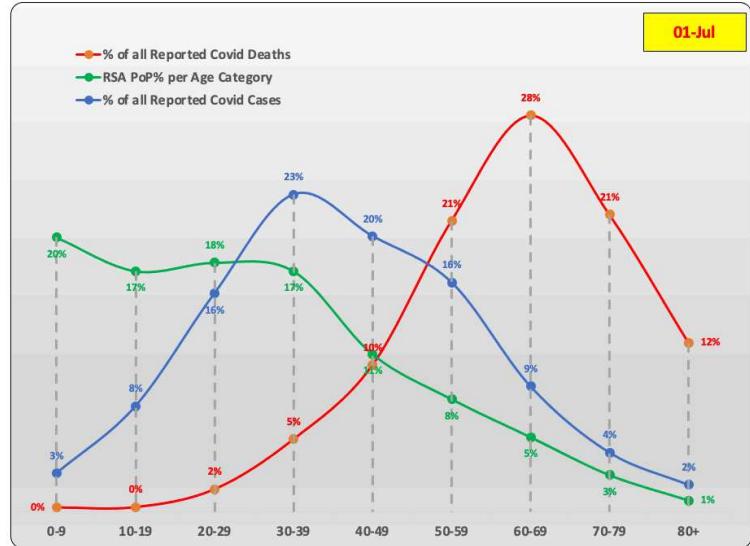

as at: 26 June 2021

Provinces

The red lines are weekly Covid deaths as reported by Dept of Health.
 The blue lines are total Natural Deaths as reported by Dept of Home Affairs.
 The gaps are the socalled "Excess Deaths" which can largely be ascribed to Covid, either directly (home/rural deaths) and/or indirectly (limited access to hospitals).

This data is only available for countries which report the breakdown of doses administered by first and second doses.

Our World
in Data

How long will it take for RSA to achieve Herd Immunity Target at current rate of Vaccination ?

Total Vaccs to date: 3 292 671 Avg Vaccs per day: 25 525
Fully Vaccsed : 479 768 Avg Vaccs per day over the last 7 days : 90 185
Single Dose only : 2 812 903 Phase 1 : Health Care Workers
Phase 2 : 60 plussers

Herd Immunity Target : 40 400 000 approx 67% of RSA adult PoP
Revised up by Govt from 41m to 40,4m on 7 May 2021

Time to achieve Herd Immunity at CURRENT daily rate of Vaccinations since start of Vaccs Program	4,34 Years
Time to achieve Herd Immunity at daily rate of Vaccinations over the past 7 DAYS	1,23 Years

Excludes the contribution to Herd Immunity by Recovered and Asymptomatic Cases.

Herd Immunity Target:
Excludes the contribution to Herd Immunity by Recovered

South Africa's vaccination plan

Updated 7 May 2021

Pfizer BioNTech requires two doses

Johnson & Johnson requires one dose

= Sisonke Trial

= National Rollout

VACCINATION ROLLOUT

28 April 2021

The Sisonke study, which uses the Johnson & Johnson vaccine, resumed after a two-week pause. The health department calls the study Phase 1A of the vaccine roll-out. By 6 May 366 101 of the 500 000 health workers in the trial had been vaccinated.

+60 year olds and health workers

Phase 2 starts on May 17. This phase will run concurrently with Phase 1B, which will cover health workers who were not vaccinated by the Sisonke study. Phase 2 will start with people over 60, which is estimated to be a population of five million. The oldest people, who have registered on the EVDS*, will generally get vaccinated first.

*Go to vaccine.enroll.gov.za to register

+40 year olds

From July, people over 40 will be included in Phase 2 of the vaccination roll-out, as well as people in congregate settings such as old-age homes (1.1 million people are estimated to reside in congregate settings)

Everyone over 18 years of age

In November, everyone else (those 18 years and older) will get their turn to get vaccinated in Phase 3 of the roll-out. This will be about 22.6 million people.

February 2022

The target, at this stage, is to have all people of 18 years and older vaccinated by February 2022. The health department says this will be up to 40.4 million people.

PLANNED VACCINE DELIVERIES

2 May 2021 Pfizer

The first batch of 325,260 doses of Pfizer-BioNTech vaccine arrived in South Africa. This two-shot vaccine will be used to start vaccinating the remaining 700,000 health workers not covered by the Sisonke trial, as well as people over 60.

May to June 2021 Pfizer

Health Minister Zweli Mkhize says 5.9 million doses from Pfizer will arrive in weekly shipments of 325,260 doses until 30 May. For the five weeks after that 636,480 doses will be delivered weekly. Another 1.4 million doses of Pfizer-BioNTech vaccine are expected from Covax.

Mid-May to June 2021 J&J

1.1 million paid-for Johnson & Johnson vaccines are expected to arrive in mid-May, then two deliveries of 900,000 doses each are expected by the end of June. This is dependent on when Aspen releases the jabs. The health department says the shots have been made, but can be released only once a safety verification process by international regulatory authorities has been completed. **

July to December 2021 Pfizer

In Parliament on 28 April, Mkhize said by the end of June another 2 million doses of Pfizer-BioNTech are expected and another 8 million are expected by the end of September. The president omitted these doses in parliament on 6 May.

28.2 million Johnson & Johnson doses are expected between July and the end of the year. **J&J**

Total Vaccines by end of 2021

J&J	Johnson & Johnson = 31.2 million ** (mainly for use in rural districts)
Pfizer	Pfizer-BioNTech = 31.4 million (for use in metros)

** The Health Department's presentation to Parliament 28 April stated 3 million Johnson & Johnson shots would be delivered in Q2 2021. In previous statements the department has indicated that 2.9 million shots will be delivered in that period. This timeline is based on the most recent information available on 6 May. We will update the timelines and re-circulate them when the information changes.

A smile is the best vaccine....

Pandemic Laughter...

👉 If you see me leaving this group, please add me again. It's just that I'm so desperate to go out! 😢

👉 Never in my wildest dreams have I imagined myself entering a bank, wearing a mask, and asking for money. 😊

👉 Never thought my hands would one day consume more alcohol than my liver... ever! 😂

👉 Lock down seems like a Netflix series: just when you think it's over, they release the next season. 😅

👉 I'm starting to like this mask thing. I went to the supermarket yesterday and two people that I owe money to didn't recognize me. 😊

👉 Those complaining that we didn't have enough holidays, what now? 😍

👉 I need to social distance myself from my fridge; I tested positive for excess weight!

Pandemic Laughter...

👉 I'm not planning on adding 2020 to my age. I didn't even use it! I don't know about 2021. Does it exist? 😊

👉 We want to publicly apologize to the year 2019 for all the bad things we said about it. 😊

👉 To all the ladies who were praying for their husbands to spend more time with them – how are you doing? 😊

👉 My washing machine only accepts pyjamas these days. I put in a pair of jeans and a message popped up : "Stay Home" 😂

2019: Avoid negative people

2020: Avoid positive people

2021: Avoid people because you don't know if they are positive or negative
Can't wait for 2022
